- Meet various media types
- Scrolling text marquee
- Videos and images auto fit
- Banner ad
- Vertical or horizontal installation
- Time and weather reminder to attract the eyeballs
- 24 hours advertising without after service fee

Vertical or Horizontal Type

Depend on your demand, there are two types available. One is the vertical and the other one is horizontal type. You can choose the one which can suit you well.

Videos and Images Auto-fit

Not only the videos, DDS can play the images on the screens as well. It can also fit the screens automatically. You don't need to adjust the size on your own!

Scrolling Text Marquee

Scrolling text marquee is the main feature of DDS. If you would like to update or release the news, what you need is to insert the texts. That is quick and easy!

Replace the Traditional Board

In contrast with the traditional board, DDS is a multimedia advertising tool. When the parents wait for their children, DDS can display all the latest news, exams, classes, activities and important information. It doesn't take much time, and prevents the paper wasting.

12 Patterns

There are 12 patterns to meet various demands. You choose the pattern that can display your information well.
